#### **About Impact Oil & Gas**

Impact Oil and Gas was founded in 2009 targeting a number of areas offshore South Africa. It has since partnered with ExxonMobil and Statoil (South Africa), CNOOC (AGC) and Total (Namibia and South Africa)

With a clear strategic focus as an Africa only, pure exploration company, management is committed to building an attractive group of exploration assets and securing large independent and major oil companies as partners. The company’s objective is to build a world class portfolio, in a number of different geologic and geographic locations on the African continental margins. Management believes that by doing so, and by having oil industry partners validate its exploration concepts and ideas, it can deliver substantial shareholder value in the medium to longer term. The company’s current portfolio covers over 90,271 km<sup>2</sup> gross, across South Africa, Namibia, Gabon and AGC (Senegal/Guinea-Bissau).
